## it's a nice day for a white wedding... or something a little bit different?

If the word 'traditional' makes you want to turn on your leopard print loafers and run for the hills, Malmaison might just be the place for you.

With the perfect mix of beautiful, unconventional spaces to hold your wedding or civil ceremony, and a mission to make those spaces uniquely yours, we can help you make your day as big as you want it to be.

A stuffy reception room and half a bottle of wine per head might be okay for some, but we do things differently. Imaginative canapés, master mixologists, eccentric

interiors... everyone's love story is unique, and we're here to celebrate that in everything that we do.

A little bird once told us that the way to someone's heart was through their taste buds. We have a collection of menus ready for you to fall in love with that range from the lavish to the laid back and provide the perfect complementary option to your occasion, your personal preference, and of course, your budget.

Whether you go for the subtly sophisticated, or bold and bursting with imaginative flavour combinations, we have the tailor-made solution that's right for your wedding day.

*After all, Mal be the food of love.*

We never adopt a one-size-fits-all approach here at Mal and that's no different with our menus, with package options to suit an intimate affair or a 'do' ritzy enough to rival a royal wedding!
